

2ND REGIONAL **SECHO**

ULTRASOUND
CONGRESS

11-13 DECEMBER 2025

DAY 1: Thursday, 11th December

08:00-09:00	REGISTRATION			
	HALL „Donji Dorćol“	HALL „Gornji Dorćol“	HALL Šonda 2	HALL Šonda 4: WORKSHOPS
09:00–10:30	BASIC SESSION 1: Ultrasonography in urology and nephrology	STANDARD SESSION 1: Breast ultrasound Moderators: Mirjan Nadrljanski / Svetlana Kocić	STANDARD SESSION 2: Ultrasonographic imaging of an eye Moderator: Ivan Stefanović	WORKSHOP 1: Basics of abdominal ultrasound
	Renal ultrasonography <i>Aleksandar Tasić</i>	ABC breast ultrasound: Basic examination techniques <i>Marjana Đorđević</i>	Intraocular eye tumors <i>Smiljka Djurić</i>	
	Renal Doppler sonography <i>Mustafa Sečil</i>	Practical usage of US-BI-RADS descriptors <i>Iva Krušac</i>	Intraocular eye tumors in pediatric patients <i>Bojana Dačić Krnjaja</i>	
	Bladder ultrasonography <i>Miroslav Mišović</i>	Breast ultrasound: US characteristics of benign and malignant lesions <i>Svetlana Kocić</i>	Echographic findings on the posterior segment eye in uveitis <i>Aleksandra Ilić</i>	
	Transrectal prostate ultrasonography <i>Sanja Stojanović</i>	Cystic and complex cystic lesions <i>Tamara Vučinić</i>	Comparison of normal and altered echographic findings of the vitreous body and retina <i>Sanja Petrović Pajić</i>	
	Scrotal ultrasonography <i>Olivera Nikolić</i>	Case reports: Ultrasound and multimodal breast imaging <i>Marko Mihajlović</i>	Echographic findings in posterior scleritis, <i>Mirjana Ilić</i>	
	Penile ultrasonography <i>Michele Bertolotto</i>		Eye trauma <i>Ivan Stefanović</i>	

DAY 1: Thursday, 11th December

10:45–12:15	BASIC SESSION 2: Musculoskeletal Ultrasound Moderator: Nenad Janeski	BASIC SESSION 3: Pediatric Ultrasound Moderators: Polina Pavičević/ Ivana Dašić	BASIC SESSION 4: Cardiac ultrasonography Moderators: Dimitrije Zrnić / Olga Petrović	Workshop 2: Basics of urinary tract ultrasound
	Introduction to musculoskeletal ultrasound, the basics of setting up the US machine and techniques for performing US MSK examinations <i>Nenad Janeski</i>	Dilatation of the pyelocalyx system/ureter in children - what is "normal" and what requires additional diagnostics and monitoring? <i>Ivana Dašić</i>	What should every doctor know about heart ultrasound? <i>Dimitrije Zrnić</i>	
	Basic Ultrasound of muscles and tendons <i>Nataša Rakonjac</i>	US examination of emergency non- traumatic conditions in pediatric patients <i>Goran Đuričić</i>	Differences between HFpEF and HFrEF <i>Ivana Rakočević</i>	
	Basic US of shoulders: Anatomy and the most common pathological conditions <i>Ana Ranković</i>	US examination of hips in infants <i>Tijana Radović</i>	Foreign bodies in the heart -KI <i>Ana Uscumlic</i>	
	Basic US of hips: Anatomy and the most common pathological conditions <i>Nenad Janeski</i>	The most common indications for CNS examination in neonates/infants <i>Vesna Topić</i>		
	Basic US of knees: Anatomy and the most common pathological conditions <i>Perica Adnadžević</i>	Acute appendicitis: examination technique and what should be emphasized in the report <i>Polina Pavičević</i>		
		Abdominal masses in pediatric patients <i>Sofija Cvejić</i>		
12:15–12:45	COFFEE BREAK			

DAY 1: Thursday, 11th December

12:45–14:15	BASIC SESSION 5: Emergency ultrasound	STANDARD SESSION 3: Ultrasound in interventional radiology Moderator: Dragan Vasin	ADVANCED SESSION 1: Cardiac Ultrasound Moderators: Dimitrije Zrnić / Olga Petrović	Workshop:3 Liver elastography
	What does an emergency medicine doctor expect from an ultrasound? <i>Marina Đikić</i>	Ultrasound-guided percutaneous biopsies in the abdomen <i>Dušan Bulatović</i>	Transesophageal echocardiography - to whom it should be done, when and why KI. <i>Olga Petrović</i>	
	Emergency Echocardiography <i>Nebojša Radovanović</i>	Specificities of omental biopsies <i>Dragan Vasin</i>	Valvular heart diseases <i>Ivana Paunović</i>	
	Emergency Vascular Ultrasound <i>Stefan Milošević</i>	Percutaneous drainage in the abdomen and pelvis <i>Miloš Zakošek</i>	Advanced echocardiographic techniques <i>Danijela Trifunović - Zamaklar</i>	
	FASTprotocole <i>Miroslav Mišović</i>	Thermal ablations in the treatment of HCC <i>Dragan Mašulović / Aleksandar Filipovic</i>		
	Ultrasound diagnostics of emergency MSC conditions <i>Eugen Divjak</i>	Importance of intraoperative ultrasound in liver resections <i>Daniel Galun</i>		
	Ultrasound diagnostics of emergency conditions in the neck <i>Tijana Tomić</i>			
14:15–15:30	LUNCH BREAK			
16:00–19:00	Opening ceremony and guest lecturers			

DAY 2: Friday, 12th December

08:00–09:00	REGISTRATION			
	HALL „Donji Dorćol“	HALL „Gornji Dorćol“	HALL Šonda 2	HALL Šonda 4: WORKSHOPS
09:00–10:30	BASIC SESSION 6: Vascular Ultrasound Moderator: Dragan Vasić	STANDARD SESSION 4: Ultrasound in endocrinology Moderators: Ruža Stević / Jelena Kovač	STANDARD SESSION 5: Thoracic Ultrasound Moderator: Ruža Stević	Workshop 4 Basics of standard echo sonographic examination
	Introduction to ultrasonography of blood vessels <i>Nikola Aleksić</i>	US anatomy of the soft tissues in the neck <i>Svetlana Antić</i>	Ultrasound of the chest wall - normal and pathological findings <i>Ruža Stević</i>	
	Ultrasound of Carotid and Vertebral arteries <i>Marijan Bosevski</i>	US diagnostics of the nodular lesions in the thyroid and parathyroid glands <i>Ruža Stević</i>	Ultrasound of the pleura – not only for effusion <i>Katarina Lukić</i>	
	Ultrasonography of the abdominal aorta and iliac arteries <i>Branko Gaković</i>	US of pancreatic endocrine tumors - opportunities and limitations <i>Jelena Kovač</i>	Ultrasound of pathological changes in the lungs and mediastinum <i>Nikola Čolić</i>	
	Ultrasonography of the limb arteries <i>Milica Vraneš Stojimirov</i>	US of pathological lesions in the adrenal glands <i>Snježana Erceg</i>	Chest ultrasound in intensive care units <i>Ruža Stević</i>	
	Ultrasonography of the limb veins <i>Milan Matić</i>			

DAY 2: Friday, 12th December

10:45–12:15	BASIC SESSION 7: Ultrasound of hepatobiliary system and pancreas	ADVANCED SESSION 2: Breast ultrasound Moderators: Mirjan Nadrljanski / Marijana Basta-Nikolić	STANDARD SESSION 6: Facial ultrasound and the US of maxillofacial region	Workshop 5: Thoracic ultrasound BASIC
	Gallbladder Ultrasound <i>Miloš Dujović</i>	Breast elastography in practice: the latest information <i>Mirjan Nadrljanski</i>		
	Bile duct pathologies <i>Radiša Vojinović</i>	Multiparametric breast ultrasound <i>Boris Brkljačić</i>		
	Pankreatitis <i>Aleksandra Janković</i>	Imaging of the armpit (axillar region) <i>Marijana Basta-Nikolić</i>		
	Cystic and Solid lesions of Pancreas <i>Nataša Mrdaković</i>	Ultrasound-guided breast biopsy and localization of lesions <i>Dejan Dimitrijević</i>		
	Focal liver lesions <i>Stefan Stojković</i>			
	Congenital anomalies of the bile ducts and the gallbladder <i>Dubravka Milutinović</i>			
12:15–12:45	COFFEE BREAK			

DAY 2: Friday, 12th December

12:45–14:15	STANDARD SESSION 7: Ultrasound in urology and nephrology	ADVANCED SESSION 3: Ultrasound in pediatric patients Moderators: Polina Pavićević / Ivana Dašić		
		Ultrasound examination of the chest in children - where are the limits and place in daily clinical practice <i>Jovan Lovrenski</i>		
		CeVUS in the diagnosis of VUR in children <i>Polina Pavićević</i>		
		CEUS- most common indications and possible applications in the pediatric population <i>Damjana Ključevšek</i>		
		The role of ultrasound kidney transplantation in children – before, after during post-transplantation monitoring <i>Tijana Radović</i>		
		Ultrasound diagnostics of vascular anomalies in children <i>Ivana Dašić</i>		
		Ultrasonography of emergency gastrointestinal conditions in children <i>Dubravka Milutinović</i>		
		Significance of scrotal ultrasound in children <i>Biljana Ognjenoska</i>		

DAY 2: Friday, 12th December

14:15–15:30	LUNCH BREAK			
15:30–17:00	STANDARD SESSION 8: Emergency ultrasound	STANDARD SESSION 9: Ultrasound of upper extremities Moderator: Marko Ilić	Presentation of Scientific Papers	Workshop 6: Neck Ultrasound
	What does the surgeon expect from ultrasound? <i>Krstina Doklešić</i>	Anatomy of the muscles and joints of upper extremities <i>Goran Đuričić</i>		
	Ultrasound diagnostics of emergency HBP conditions <i>Sofija Radovanović</i>	US examination of the blood vessels of the upper extremities <i>Tijana Koković</i>		
	Ultrasound diagnosis of urgent GIT conditions <i>Milica Mitrović Jovanović</i>	Nerve US <i>Branko Gaković</i>		
	The role of transvaginal US in acute conditions <i>Miloš Petronijević</i>	US of the shoulder and the elbow <i>Ivan Anđelković</i>		
	The role of transabdominal US acute gynecological conditions <i>Sara Milenković</i>	Ultrasound guided interventions <i>Marko Vučetić</i>		
	Emergency ultrasound in urology <i>Uroš Bumbaširević</i>	US examination of rheumatological diseases in children <i>Stefan Đorđević</i>		

DAY 2: Friday, 12th December

17:00–18:30	STANDARD SESSION 10: Ultrasound in inflammatory bowel diseases	STANDARD SESSION 11: Ultrasound in gynecology and perinatology Moderator: Jelena Dukanac Stamenković	STANDARD SESSION 12: Ultrasound of visceral blood vessels	WORKSHOP 7: Ultrasound of upper extremities
	What should every doctor know about inflammatory bowel diseases? <i>Aleksandra Sokić Milutinović</i>	First trimester screening - what we can see <i>Dragana Maglić</i>	US of the portal system and transplanted liver	
	Significance of intestinal ultrasound in the radiological diagnosis of IBD <i>Miodrag Lalošević</i>	Second Trimester Imaging: Review of the ISUOG Guidelines <i>Milena Perišić</i>	US examination of the transplanted kidney <i>Voin Brković</i>	
	Transperineal ultrasound in IBD <i>Dominik Kralj</i>	Screening for preeclampsia in the first trimester <i>Relja Lukić</i>	Organ transplantation in children <i>Tijana Radović</i>	
		Placenta accreta spectrum - how ultrasonographic examination helps in diagnosis <i>Ljiljana Mirković</i>	US examination of congenital anomalies and renal vascularization disorders <i>Sofija Cvejić</i>	
		Examination of the fetal CNS and its correlation with MRI <i>Vesna Mandić</i>	The role of US in the diagnosis of mesenteric ischemia – <i>Jelica Vukmirović</i>	
		Fetal echocardiographic examination - what can we see <i>Jelena Dukanac Stamenković, Mirjana Marjanović Cvetičanin</i>	Transcranial doppler <i>Milija Mijailović</i>	
		Ultrasound in assessing fetal development: the difference between SGA and FGR <i>Olivera Kontić Vučinić</i>		
		Treatment of TTTS i TAPS-a complications in monochorionic twins- <i>Dejan Filimonović</i>		
		Correlation of genetic test results with ultrasonographic examination - <i>Bojana Petrović</i>		
		Benign lesions of the uterus and pregnancy <i>Radmila Sparić</i>		
		Oncofertility and pregnancy <i>Katarina Stefanović</i>		

DAY 3: Saturday, 13th December

08:00-09:00	REGISTRATION			
	HALL „Donji Dorćol“	HALL „Gornji Dorćol“	HALL Šonda 2	HALL Šonda 4: WORKSHOPS
09:00–10:30	ADVANCED SESSION 4: Hepatobiliary and pancreatic ultrasound	BASIC SESSION 8: Gynecology Moderator: Marijana Basta Nikolić	STANDARD SESSION 13: Ultrasound in ICU – WinFocus course Moderator: Marija Milenković	Workshop 8: Doppler of the blood vessels and transcranial doppler
	Liver elastography <i>Milica Stojković Lalošević</i>	Sonographic anatomy of the female pelvis and physiological variations of the female genital organs - what every doctor should know <i>Doc. Zoran Vilendečić</i>	Ultrasound - what is it for the doctor who not a radiologist <i>Jovana Radmilović</i>	
	EUS in the HBP system diseases <i>Aleksandra Pavlović Marković</i>	Recognizing the most common pathological conditions - when should we refer the patient to specialists <i>Olivera Džatić Smiljković</i>	Abdominal pain - what is ultrasound and how can it help <i>Ksenija Petrović</i>	
	Ultrasound in liver cirrhosis <i>Tamara Milovanović</i>	The role of transabdominal ultrasonography in gynecological conditions <i>Marijana Basta Nikolić</i>	Pneumonia or pulmonary edema - an eternal dilemma <i>Marija Milenković</i>	
	CEUS <i>Moga Tudor</i>	Ultrasound diagnostics of emergency conditions in gynecology <i>Sanja Stojanović</i>	Echocardiography: from prehospital to cardiologist <i>Vitka Vujanović</i>	
	Tumor lesions of the liver in the pediatric population <i>Tijana Radović</i>	Ultrasound in postpartal and postoperative complications <i>Mustafa Sečil</i>	Leg pain - from dilemma to diagnosis <i>Goran Rondović</i>	

DAY 3: Saturday, 13th December

10:45–12:15	STANDARD SESSION 14: Intestinal Ultrasound	ADVANCED SESSION 5: MSC ultrasound Moderator: Nenad Janeski	STANDARD SESSION 15: Ultrasound in ICU WinFocus course	Workshop 8: Ultrasound Guided interventions
	Ultrasonographic bowel anatomy <i>Danijela Miletić</i>	Elastography of tendons and muscles <i>Nenad Janeski</i>	Respiratory insufficiency - ultrasound approach <i>Ksenija Petrović</i>	
	Ultrasound diagnosis of emergency conditions of the gastrointestinal tract in children <i>Polina Pavićević/Sofija Cvejić</i>	US of peripheral nerves and compressive neuropathy <i>dr Ana Ranković</i>	Significance of US examination of the inferior vena cava <i>Dragan Vasin</i>	
	Inflammatory conditions of digestive tract <i>Milica Stojković Lalošević</i>	Elbow US <i>Nataša Rakonjac</i>	Non-invasive hemodynamic monitoring – the power of ultrasound <i>Adi Hadžibegović</i>	
	Intestinal obstruction <i>Dejan Jovanović</i>	US of the wrist and hand <i>Nenad Janeski</i>	Fluid replacement – an individual approach <i>Marija Milenković</i>	
	Tumor lesions of bowels - <i>Dušan Šaponjski</i>	US of the ankle and foot <i>Perica Adnadžević</i>		
	Ultrasonographic pathology of the peritoneum and abdominal wall <i>dr Dragan Vasin</i>			
	Ultrasound in the diagnosing of herniations - <i>Stefan Milošević</i>			
	Ultrasound of the non-inflammatory conditions in the gastrointestinal tract <i>Đorđe Lalošević.</i>			
12:15–12:45	COFFEE BREAK			

DAY 3: Saturday, 13 th December				
12:45–14:15	ADVANCED 6: Gynecology Moderator: Marijana Basta Nikolić	STANDARD SESSION 16: Ultrasound of the spleen and in hematological conditions Moderator: Aleksandar Pavlović	Workshop 9: Ultrasound in ICU	Workshop 10: Intestinal ultrasound
	Ultrasound diagnosis of benign and malignant uterine tumors <i>Aleksandar Jurišić</i>	What does a hematologist expect from ultrasound? <i>Darko Antić</i>		
	Ultrasound diagnosis of benign and malignant ovarian tumors <i>Ivan Bolanča</i>	Algorithm of ultrasound access in pediatric hematology <i>Jelena Lazić</i>		
	Ultrasound in infertility - diagnosis and therapy <i>Vesna Kopitović</i>	Spleen Ultrasound <i>Aleksandar Spasić</i>		
	Pathological conditions in pregnancy important for radiologists <i>Senka Sabolović</i>	Ultrasonographic morphology of lymphnodes <i>Ljuba Milenković</i>		
		US approach in patients with the coagulation disorders <i>Miljana Bubanja</i>		
		US approach in patients with anemia <i>Branislav Gajić</i>		
14:15–15:30	LUNCH BREAK			

DAY 3: Saturday, 13th December

15:30-17:00	STANDARD SESSION 17: Acute pelvic pain – US approach	ADVANCED SESSION 7: Vascular ultrasound Moderator: Dragan Vasić		Workshop 11: Knee ultrasound
	US approach in patients with acute pelvic pain: differential diagnoses <i>dr Ksenija Mijović</i>	Ultrasonography of carotid and vertebral arteries <i>Sandra Radak</i>		
	US in acute appendicitis <i>Nedžad Kršić</i>	Ultrasonography of the abdominal aorta and iliac arteries <i>Dragan Vasić</i>		
	Urological disorders as a cause of acute pelvic pain <i>Veljko Šantrić</i>	Ultrasonography of the limb arteries <i>Oliver Radmili</i>		
	Gynecological disorders as a cause of acute pelvic pain <i>Igor Pilić</i>	Ultrasonography of the limb veins <i>TBA</i>		
	Surgical conditions as a cause of acute pelvic pain <i>Vladimir Resanović</i>	Ultrasonography of A - V fistulas <i>Tamara Jemcov</i>		
	Acute pelvic pain in children – US approach <i>Sofija Cvejić</i>	IVUS <i>Stefan Milošević</i>		
17:00–18:00	Interactive Quiz			Workshop 12: Basic ultrasonographic examination
